## CCUG shipment check: EN 829 – UN 3373 – UN 2814

This document serves as a record of shipment details. The document is faxed to customers to comply with the IATA Dangerous Goods Regulations 1.3.3.1 and for making customers aware of the eventual need for import or working permits. We always ship HG2 and HG3 in NOAX containers with a transparent over pack. The following documents will always be included: 1) 'a packing slip' listing details of the contents, 2) a shipper's declaration for air transport, and 3) an ADR document for road transport. Please consult our disclaimer (<http://www.ccug.se>). This form is even used for biological material, here listed as EN 829, which may be shipped in simpler containers since falling outside the dangerous goods regulations.

<b>Status (Communication with the customer)</b>	<b>Check</b>	<b>Sign</b>	<b>Comments</b>
